

Cape Lookout !

July 13 - 17

Always looking forward to an opportunity to get out to this pristine location? Missed it last year? Haven't been there yet? Got some time for a few days of fun and nature's treats? Then mark your calendar for Thursday, July 13 through Monday, July 17 and let's go to Cape Lookout!!

NOTE: Allowances should be made for 'weather days' and a watchful eye must be attentive to nor'easters and tropical depressions.

Worried about July heat? Remember the sea breeze that comes in every day (like the beach) that keeps you cool AND keeps the afternoon thunderstorms inland!

Itinerary: Thursday. depart FH, run down Adams Creek and anchor in Town Creek (behind Beaufort...adjacent to new bridge construction); Friday AM time the departure to catch the slack current in the Morehead City Inlet, then sail off to the Cape Lookout Bight and start exploring; Sat. & Sun. continue exploring; Monday depart for Cedar Cr. for an overnight anchorage; Tuesday return home.

Social Considerations: Plan for afternoon socials on the beach...bring beach chairs; Plan an evening bonfire?...everyone bring some firewood...hot dogs? marshmallows? Smoores?

Crew Meeting: Monday, July 10, 4 PM, Activity Bldg, Room 2.

RSVP: either with the form below to the brown box at 5712 Barbary Coast Drive, or with the requested data via bdgiersch@suddenlink.net

....email reply is preferred, given absences from home...
